# Register Your Student(s) for the 2022-2023 School Year!

Over 100 Families Have Not Registered

The Infinite Campus Online Registration portal for existing APS families is open and must be used to register your child(ren) for the new school year! Use your home computer/laptop for this process rather than a mobile device. Information regarding required documents and the enrollment process can be found on our website under our Enroll page. After logging in to Infinite Campus by clicking here, click the "More" link on the left bottom side of the page (see image below) and follow the steps to enroll. If you do not know your login information, please contact webmaster@anchorage.kyschools.us.

The process is self-explanatory and you will be walked through each step. You can save your application at any time and return later to complete and submit your registration. Upon submission, if the enrollment was successful, your registration status section should show "complete."

If you do not have a computer, you may visit the school's office to complete your registration on a Chromebook. Please call 502-245-8927 (during summer break) beforehand to make sure we have a Chromebook ready for you to use. At this time, mobile phones and tablets are not compatible with this process.

For any other questions, please email webmaster@anchorage.kyschools.us. It is important that we have updated registration information for all of our students in order to be able to complete our scheduling and medical records processes.
